

CAMPFIRE SAVVY

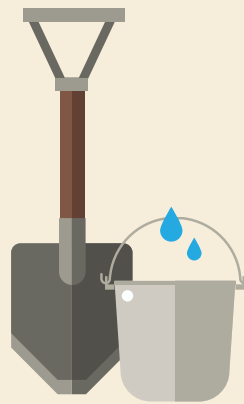

IT'S THE NEW COOL

CAMPFIRES OFFER A SPECIAL TOUCH TO A CAMPING TRIP...
KEEP IT SAFE FOR MAXIMUM FUN!

KNOW:

Check weather and burn conditions. Don't burn if it is windy or on high fire danger days.

BURN:

Keep a container of water and a shovel near fire at all times for emergency extinguishing. Make a 4-foot circle of safety around fire and teach children to remain outside the circle unless accompanied by an adult.

10'

AVOID:

Keep at least 10 feet away from tents or RVs and away from low hanging branches.

Burn **ONLY FIREWOOD**

Pack out garbage and uneaten food and cigarette butts.

BUILD:

Use an existing fire ring. Use wood that fits within the ring. Use downed wood—do not cut trees or branches.

EXTINGUISH:

Apply the 1-2-3.

1. Carefully douse with water.
2. Stir with a stick to ensure all surfaces of wood and coals get wet.
3. Repeat until cool to touch-test by placing back of hand over fire—needs to be cold to the touch.
